PROJECTS

E-COMMERCE AND PORTFOLIOS

HTML, CSS, BOOTSTRAP, REACTJS

- Designed and developed dynamic, responsive portfolio websites to ensure a seamless user experience across all devices.
- Built and optimized e-commerce websites to ensure responsiveness and user-friendly interfaces, enhancing customer engagement and satisfaction.

PROFESSIONAL NETWORKING SITE

REACTJS, NODE JS, EXPRESS JS, MONGODB

- Developed a professional networking platform that connects short-term maintenance workers (e.g.electricians,plumber, carpenters) with employers seeking their services.
- The platform features an employer's feed for finding local workers and a worker's feed for job offers,facilitating seamless connection based on location.

STUDENT ID CARD AND SHOES DETECTION

YOLO V7, PYTHON, ANOCONDA

- Developed a real-time surveillance system using YOLOv7 to detect student compliance with ID card and footwear regulations through webcam monitoring.
 - Developed a real-time surveillance system using YOLOv7 to detect students without ID cards or proper footwear, with automated email alerts to ensure compliance with institutional guidelines.
- Utilized Python and Anaconda (Jupyter Notebook) for the development and implementation of the system.
